

# CELEBRATE WITH US

## About Older Peoples Day

1st of October is National Older People's Day and coincides with International Day of Older Persons. You can get involved with National Older People's Day and help celebrate the achievements and contributions that the ageing population make to our society and tackle the negative attitudes, outdated stereotypes and support issues that affect their lives on a day to day basis.

## Who are the Older People's Partnership Hull and East Riding?

The Older People's Partnership, a registered charity since 2017, is a partnership that champions the rights of older living in Hull and the East Riding.

Working across Hull and East Yorkshire, the multi-agency partnership promotes the needs of older people, coordinating and improving existing services in the region and championing their rights.

The week long celebration of events aims to engage and bring together older people in fun activities, it also provides opportunity for people to access help and support services in the Hull and East Riding area.
